Welcome Address

Welcome to our Dermatological Society of Malaysia Midterm Meeting 2016. The theme for this year's midterm meeting is Dermatopathology Weekend. We have chosen dermatopathology as our focus as we believe dermatopathology should be given more emphasis and it is time we should develop the subspecialty of dermatopathology in this country. And having the meeting in University of Malaya, especially in TJ Danaraj Auditorium should be the ideal venue for such a meeting in a true academic atmosphere.

We are privileged to have Dr Jag Bhawan MD, Professor of Dermatology and Pathology, Head of the Dermatopathology Section, Program Director, Dermatopathology Fellowship Program, Vice-Chair, Department of Dermatology, Boston University School of Medicine, Boston, MA, USA as our guest speaker. Professor Jag Bhawan won the 2006 Walter Nickel award for Excellence in teaching of Dermatopathology, American Society of Dermatopathology and was elected the President, American Society of Dermatopathology in 2001-2.

We are also privileged to have Dr Tan Suat Hoon, Clinical Associate Professor, Medical Director and Senior consultant dermatologist, National Skin Centre, Singapore to share her expertise in the field of cutaneous lymphoma and dermatopathology with us. She was the Chairman of the Chapter of Dermatologists of the College of Physicians of Singapore from 2009 to 2013. She received the NSC best clinical teacher award in 2005 and 2007.

It is important that we encourage more dermatology and pathology trainees to take up this exciting subspecialty which is truly fascinating especially with the development of genetics and molecular pathology. We hope they will form the next generation of leaders in dermatopathology. The histologic study of the skin forms an important part of the formulation of a patient's dermatologic diagnosis. In the words of A Bernard Ackerman, dermatopathology is "art in vivo".

I want to extend a special thank you to the PDM executive committee, the midterm organising committee and the secretariat for all their good work in putting together this meeting. Finally, a word of special thanks to our guest speakers, local speakers, our sponsors and also our delegates who make this meeting possible.

Dr Henry Foong FRCP Edin
President,
Dermatological Society of Malaysia
