SPEAKERS *Biography*

DR. SUGANTHI THEVARAJAH

MBBS (Madras) M. MED (UKM)

Biography:

Dr. Suganthi Thevarajah qualified as a doctor in 1989, and as an Internal Medicine Physician in 1997. She went on to specialize in dermatology and completed her training in 2001. She further subspecialized in connective tissue diseases when she completed a one-year Fellowship in Wake Forest University, North Carolina, USA. Dr. Suganthi has been attached to the Department of Dermatology in a public hospital in Kuala Lumpur since 1999, and currently serves as a Senior Consultant Dermatologist, Head of Dermatology Department, and the National Head of Dermatology Service. She is actively involved in teaching, training dermatologists, and has published some papers in local and international journals.

ASSOC. PROF. DR. CHOON SIEW ENG

MBBS (Malaya), MRCP (UK), Diploma in Dermatology (London),
Diploma in Genitourinary Medicine (London), FRCR (London)

Biography:

Dr. Choon Siew Eng is a Senior Consultant Dermatologist in a public hospital in Johor Bahru, Malaysia and an Associate Professor in Clinical School Johor Bahru, Jeffrey Cheah School of Medicine and Health Sciences, Monash University, Malaysia. She received her medical degree from the University of Malaya. She subsequently undertook postgraduate training in general medicine and obtained membership of the Royal College of Physicians (London, UK) and was elected as a fellow in 2003. Dr. Choon was awarded a public service scholarship to pursue dermatology training and subsequently a fellowship to train in dermatopathology in St. John's Institute of Dermatology, London, UK. She is a foundation member of Asian Academy of Dermatology and Venereology and an active member of the Malaysian Society of Dermatology as well as a member of the Malaysian Medical Association. Her research interests include chronic inflammatory skin diseases namely atopic dermatitis, psoriasis particularly pustular psoriasis, hidradenitis suppurativa and cutaneous adverse drug reactions. She is a member of International Psoriasis Council and an advisor of the Psoriasis Association of Johor.

DR. EVELYN YAP WEN YEE

MBBS (IMU), MRCP (UK), Adv M Dermatology (UKM)

Biography:

Dr. Evelyn Yap Wen Yee is currently the Head of Department and Dermatologist in a public hospital in Muar, Johor. In addition, she is also the sessional dermatologist in private hospitals in Melaka. She graduated from IMU with MBBS in 2006 and achieved the MRCP (UK) in 2010. Subsequently, she underwent her dermatology training in Hospital Sultanah Aminah Johor Bahru, and Hospital Kuala Lumpur before obtaining her Advanced Master in Dermatology (UKM) in 2016. She is experienced in managing various skin conditions and is the principal investigator for industry sponsored trials on pustular psoriasis, atopic eczema and chronic urticaria. She is also a committee member of the Dermatology Chapter, Academy of Medicine Malaysia.

DR. LIM KAR SENG

MBBS (Singapore), MRCP (UK), FAMS (Dermatology)

Biography:

A dermatologist with The Dermatology Practice, Dr. Lim Kar Seng has more than 20 years of medical experience. His subspecialties are in skin cancers, phototherapy, and psoriasis.

Before entering private practice, Dr. Lim was a consultant dermatologist in the skin cancer unit, and the psoriasis unit at the National Skin Centre, Singapore. In addition, he was a clinical tutor at the Faculty of Medicine, National University of Singapore.

After graduating from the School of Medicine, National University of Singapore, Dr. Lim underwent his training in Internal Medicine. Upon completion in 2004, he obtained his Advanced Specialist Training in Dermatology at the National Skin Centre. Subsequently, Dr. Lim pursued his special interest in skin cancers at the Victoria Skin and Cancer Foundation, Australia, which sees one of the highest rates of this condition in the world. There, he worked with world-renowned experts in this field. He also did research and was involved in the care of psoriasis patients at St Vincent's hospital, Melbourne. He has extensive experience in the use of biologic therapies for psoriasis patients.
