3.1.3 Training done overseas may be considered on a case to case basis as defined in 3.1.1 and 3.1.2 above.

To qualify for registration as a Dermatologist, a candidate needs to fulfill any of the following requirements:

Category A (criteria 1 and 2), OR

Category B (criteria 1,2,3)

Additional Requirements:

In line with the NSR General Guidelines for credentialing, the acceptability of an applicant does not depend solely upon posession of the required academic qualification and training but also upon information received by the Dermatology Specialty Subcommittee (SSC) regarding professional maturity, clinical judgement, technical capabilities and ethical standing. The applicant must be medically fit and of good character.

Special Assessment:

The SSC may conduct an assessment on the applicant to ascertain that the applicant possesses the appropriate knowledge and competence to practice as an independent specialist in Dermatology. This may be in the forms of interviews and/or a formal exit examination.

Notwithstanding the above, the SSC may stipulate any conditions, including additional training or work experience, on the applicant if deemed necessary.
