Faculty of Medicine,  
Kindai University, Osaka

Chairperson

**Dr. Mimi Chang**

Specialist in Dermatology and  
Venereology  
Council Member, The Hong Kong  
Society of Dermatology and  
Venereology

## YOU ARE CORDIALLY INVITED

Synopsis: Pruritus is a frequently reported symptom for psoriasis patients. Despite the morbidity associated with pruritus in psoriasis few studies have evaluated the prevalence of itch in challenging areas to treat with the current use of biological agents. This webinar would highlight key concepts in psoriasis-associated chronic pruritus in challenging areas to treat and available approaches to complex scenarios in psoriasis patients.
