:: Faculty Of Speakers ::

1. Professor Wu Yu-Hung MD (Taiwan)
2. Dr. Lee Ban Rong (Malaysia)
3. Dr. Dawn Ambrose (Malaysia)
4. Dr. Leong Kin Fon (Malaysia)

:: Welcome Address ::

Welcome to our Dermatological Society of Malaysia Mid-Term Meeting 2017. The theme this year is Paediatric Clinicopathological Conference (CPC). As we are aware, Paediatric Dermatopathology is a very specialized area in the field of dermatology and is highly challenging for both clinicians and pathologists.

We have arranged a number of paediatric patients with very unique and interesting clinical features for clinical examination and viewing. And this year, the participants can view the prepared Histopathology (HPE) slides from the microscope placed beside individual patients.

We are privileged to have professor Wu Yu-Hung MD from Mackay Memorial Hospital Taipei, Taiwan as our distinguished guest speaker. Prof Wu Yu-Hung is currently the chairman and director of International Dermatopathology Fellowship Training Program. He is the board member of the Taiwanese Dermatological association and Taiwan Evidence-based Medicine Association.

On behalf of the organising committee, I would like to extend thanks to the PDM executive members, the Paediatric Dermatology Unit Hospital Kuala Lumpur for all their good work in hosting the event. We also would like express gratitude to our guest speakers, local speakers, delegates and also the cooperative paediatric patients to make this meeting a possible.

Agnes Heng
President
Dermatological Society Of Malaysia
